

PUBLISHED DAILY & TRI-WEEKLY BY EDGAR SNOWDEN.

FRIDAY EVENING, NOV'R. 25, 1891.

It was stated in the Gazatte's Washington correspondence yesterday, that among the corgregations assembled at the several churches in that city on that day to give thanks to God for his manifold blessings during the past year, were seen mary people who had rendered deal in the Rishmood Custem House, ere prinwho waxes lasty and strong upon the proceeds | winning their recent violery by an equal dielof his public abuse and ridicule of the God who stone of the demogratic vote, and by winning and advices received at Constantineple state the wicked are an abomination to the Lord the section in which Mr. Ingersoll finds all his not afford to, and dare not break with the regiving the unfortunate victims of his infidei teachings nothing in return for the comfortable faith of which he deprives them. Because there are some who seeff at God is no reason why all should refuse to praise Him, but wouldn't it be just as well to let those disposed to thank Him and do Him reverence, be their own judges of the time and coasion for doing so? We wonder how the ranting infidel, but the man the late President addressed as "dear Bob," spent the day the President of his party preclaimed Thankegiving Day, and if his s'ambers last night were disturbed by the thoughts of not only the religious and moral, but the physical wrecks for which he is solely ace ustable; for young men and women, but especially the latter, are steering a dangerous clurse without the compass of the hope of a bereafter taught them by their mothers.

General Mahone's Washington organ says "the position of Messrs. Paul and Fulkerson in the flouse of Representatives will be identical with that of General Mahone in the Senate." If this be so there need be no farther doubt gangeroing the way these; endemen will vote General Mahone invariably votes with the bloody shir: radicals. And yet they were elected by the votes of white Virginians, by men same of whom are silly enough to persist! io calling themselves democrats. The Richmond correspondent of the Petersborg Index-Appeal writes:

"General Mahone has carefully made up his slate with the names of the different persons to get the fattest and choicest places. In carrying out his place though he is likely to have difficalty. There are specks of trouble beginning to make their appearance in the official horizon. He cannot give a prize to everybody, and the result will be that many will be called but few chosen. The latter will be happy but those left out will have to bear it-whether they will be able to get up a 'grin' or not, is anoin managing these troublesome people wonderfully well, and in all probability will do so this year. - I am inclined to think that as was the case in 1879, the General's republican allies are going to give him less trouble than some of the original readjusters. The Cuiteau Trial.

WASHINGTON, Nov. 25 -Shortly before the advent of Judge Cox this mersing the Crimical Court room presented the appearance of a well filled theatre upon an opening night. The Court being opened, Mr. Scoville stated that Guiteau desired to make a statement. No objection being made, Guiteau read from

managoript, substantially as follows :

"I propose to have all the facts bearing on this case to go to the court and the jury, and, to do this, I have been forced to interrupt counsel and witnesses, who were mistaken as to supposed facts. I meant no discourtesy to them or any one. Any fact to my eareer bearing on the question "who fired that shot, the Dely or mysell" is of vital importance in this case, and I propose that it go to the jary. Heren my personal, political and theological regulation adjacent wall, produced a knift from record may be developed. I am glad that your his picket and deliberately draw the blade hoper and the opposite of the produced a knift from the produced a constant of the constant of the produced a constant of the constant of honor and the opposing couosel are disposed to give a historical review of my life, and I ask the press and the public to do likewise. All I want is absolute justice ; and I shal not permit any crocked work. I have no idea my counsel wants crooked work. They are often mistaken on supposed facts, and I shall have to correct them. Last spring cirtain nowspapers in New York and Washington were bitterly denouncing the President for breaking up the republican party by improper appointments. I would like those newspapers to report those editoria's new, and see how they would look and sound. In attempting to remove the President, I only did what the papers said ought to be done. Since July 2nd they have been driffing the President and denoucoing me for doing the very thing they said ought to be done. I went the newspapers and doctors, who actually killed the President, to shere with mo the edium of his death. I never would have shot him of my own volition, notwith stending those newspapers, if I had not been commissioned by the Deity to do the deed. Bat this fact does not relieve the newspapers from the supposed disgrace of the President's removal. It he had been proper'y treated he would have been slive to-day. It has been published that I am in fear of death. It is fa'se. I have always been a religious man and an se ive worker for Ged. Some pecple think that I am a murderer, but the Lord does not, for He inspired the set, as in the orse of Abraham and a score of other cises in the Bible. The assalt made upon me on Salurday by a crack has been condemned by the press. The eyes of the civil zed world are watching this esse, and it behooves this court and the Metro politan police to protect me at all hezards. I hereby warn all cranks of high and low degree to keep away from me under penalty of instant death. He would have been shot dead on Saturday but for the rearing of the horses in the van as the officer was shooting. The horses shock the van so that he lest his aim, and, though the van pursued him, he temperarily escaped. I waste my arguments on cranks. All they can see in the case is a policeman's revolver. Again, I say if they value thier lives they must keep away from me. I desire the court and the jury to dispose of this case on the facts and the law, and leave all the respon-

ibility shon: it to the verdiet." Mr. Seoville referred to his previous demands for certain printed newspaper slips which were taken from Guitean at the time of his arrest. With great difficulty Mr. Scoville, after some minutes of expositistion succeeded in quioling Guitean, who for the next fifteen minutes devoted himself to his newspapers. Two other witnesses were called but failed to respood. Joseph B. Smith of Freeport, Ill., then testined as to bis sequaintance with Gnitean'e family.

E. O. Fois, of Dover, N. H., another witness, was at the depot when President Garfield was shot. His evidere; was of no partienlar interest and in substances that of others. There were several sharp passages between Mr. Serville and the Court for the prosecution during the questioning of this witness.
